## From Germany to the world

# HÄMMERLING

**HÄMMERLING**  
GROUP

**HÄMMERLING**  
THE TYRE COMPANY

**HÄMMERLING**  
RH-BESITZ

**TOL**  
TYRES ONLINE

In more than 45 years, Hämmerling has become a household name in the tyre industry. As a tyre dealer, IT service provider, and manufacturer of our own truck tyres and steel wheels, we now offer our customers a comprehensive range of tyre services.

The Hämmerling Group, as the umbrella organization, forms the entrepreneurial framework for the tyre trade of Hämmerling Tyre Company, Tyres Online, and other services—all of which we have perfectly integrated.

**We keep the economy moving.**

# Foundations for success

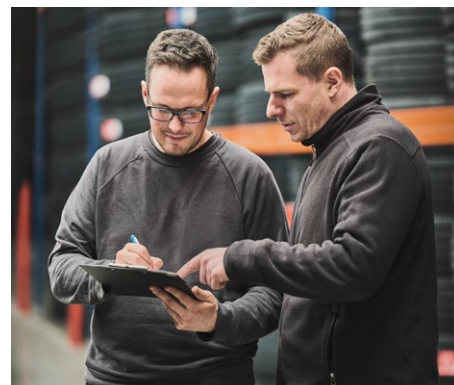

## Capitalising on opportunities and investing in the future

We have to identify opportunities and act decisively to move our company forward. It is even more important for us to strategically consider in advance which areas will be important and, above all, successful in the long term – something that sets us apart from many of our competitors.

Is modern business management a challenge? Yes, of course. But we are very well positioned.

That's because, as a family-run company, we operate with a value-based and sustainable approach – we invest in the long term in new business areas, in digitalization and in our employees. That all pays off because it's the people, OUR people who keep Hämmerling moving in the right direction.

**We keep on moving.**
